Professional Summary

- Over 2 years of experience in Full Stack Development, specializing in backend technologies like Java Spring Boot, Hibernate.
- Proficient in cloud platforms like AWS EC2 and GCP, with a focus on designing and deploying robust, scalable web applications.
- Expertise in database management and integration with PostgreSQL and Microsoft SQL Server.
- Skilled in building flexible and secure architectures for various applications, including health management systems, payments systems.
- Experience in working with cross-functional teams to deliver high-quality products on time.
- Adept at quickly learning and adopting new technologies to improve development workflows and enhance application performance.

Skills

Programming Languages:
Java, HTML & CSS, JavaScript
Databases:
SQL
Libraries/Frameworks:
Hibernate, Maven, Spring Framework, Microservices, ReactJS
Version Control:
Git
Version Control Tools:
GitHub, Gitlab, Gitea

Experience

JAVA DEVELOPER| APPYSTACK PRIVATE LIMITED| DECEMBER 2022– JANUARY 2025

Project: DocITHealth Management System

- Developed multiple functionalities for the DocITHealth project, a health management system.
- Ensured the application was designed in accordance with modern UI/UX principles to enhance user experience.
- Implemented a flexible table structure to accommodate new functionalities with minimal changes.
- Worked closely with frontend developers to ensure seamless integration of backend services.
- Collaborated with senior backend developers (5-6 years of experience) to deliver high-quality code and solutions.
- Agile Methodologies: Participated in daily stand-ups, sprint planning, and code reviews to ensure smooth project execution.

Project: Bharati Payments Application

- Led a team to successfully complete and deliver the Bharati Payments Application.
- Coordinated with clients to gather and understand project requirements.
- Integrated ICICI Bank's payment gateway into the application for secure transaction processing.
- Implemented Spring Security 6 for robust security and user authentication mechanisms.
- Managed project timelines, resource allocation, and ensured high-quality delivery in alignment with client expectations.

Server Administration:

- Managed and maintained server infrastructure to ensure high availability and performance.
- Monitored server performance, implemented security protocols, and performed regular backups.

Education

B.E IN COMPUTER SCIENCE AND ENGINEERING | 2022 | JAWAHARALAL DARDA INSTITUTE OF ENGINEERING AND TECHNOLOGY YAVATMAL
